

**Amendment To Specification
By Replacement Paragraph**

Please delete the paragraph at page 6 , lines 4 through 7 of the original specification and substitute therefore the following replacement paragraph:

Marked up replacement paragraph

A telescoping support 18 is mounted between the side frame subassemblies 12a, 12b, and a seat 20 is supported on an upper end of the telescoping support 18 for movement between a lowered and an elevated condition, shown in solid and phantom lining, respectively, in Fig. 1. As seen in the phantom lined portion of Fig. 1 and understood from Figs 3 and 4 and elsewhere in the description and drawings, the seat 20 is entirely supported on the telescoping support 18 as it rises and lowers and in particular is supported on the upper end of the movable upper member 26 of the telescoping support 18.
